Report of Committee

Authorized to take action in regard to building new bridge at Enosburg Falls.

Your committee, as directed, engaged a competent engineer to make an examination of said bridge and report in regard to its condition.

It was decided, after receiving said report, and giving same due consideration, to take no action.

Respectfully submitted,

F. W. SPICER,

Secretary for the Committee.

TOWN AGENT'S REPORT.

There have been two suits brought against the town of Enosburg during the year ending January 30th, 1915. Dr. C. A. Pratt sued the town for services rendered a Phillips boy, which was contested at an expense to the town of \$5.90. Elizar Baird of Bakersfield sued the town for damages received by his automobile going off a bridge. This suit was contested with an expense to the town of \$507.05. The selectmen were consulted in both of these suits and they were unanimous in advising that they be contested.

Respectfully submitted,

RICHARD SMITH,

HEALTH OFFICER'S REPORT.

There seems to be some misunderstanding as to reporting communicable diseases and by not reporting them we have more exposures than we should if they were properly reported.

I will quote the list of reportable diseases, typhoid fever, Typhus fever, small pox, chicken pox, measles, scarlet fever, whooping cough, diphtheria, cholera, yellow fever, bubonic plague, mumps, german measles, glanders, hydrophobia, epidemic cerebro-spinal meningitis, pneumonia, infantile paralysis, puerperal fever, epidemic dysentery, erysipelas, leprosy, tetanus, anthrax, actinomycosis. For penalty of not reporting above mentioned diseases I refer you to Sec. 5454 Public Statutes. Will quote the last five lines. "The head of a family or a physician who fails to give reasonable notice to said health officer of the existence of such a disease shall be fined not more than fifty dollars nor less than ten dollars, with costs of prosecution."

We have had an unusually large amount of fumigating to do this year.

During the year 1914 we have had 20 cases of typhoid fever with 1 death, 5 cases infantile paralysis with 1 death, 11 cases scarlet fever, 3 cases diphtheria, 2 cases measles, 9 cases mumps and 4 cases chicken pox.

Thirty-three burial or removal permits have been given.

Respectfully submitted,

C. G. ABELL,

Health Officer.

The Auditors find recorded during the year 1914, 31 deaths, 40 births and 20 marriages.

RECOMMENDATIONS OF THE UNION SUPERINTENDENT.

To the Honorable Board of School Directors and Citizens of the Town of Enosburg:

The Superintendent's detailed report of the conditions of the various schools of the town, under the present State Law, is made out in June, at the end of the school year.

The State Law requires recommendations from the superintendent for the improvement of school buildings and equipment, which should be considered by the voters of the town at the Annual March meeting:

In conformity to the above law, I have the pleasure of submitting the following recommendations for consideration viz:—

1. That a hardwood floor be laid in the West Enosburg school building.
2. That a furnace be installed in the basement of the Samsonville school and the outhouse moved back twenty feet from the main building.
3. That a furnace be installed in the basement of the East Enosburg school.
4. That the outhouse at the Woodward school be renovated and moved back twenty feet from the main building.
5. That slate blackboards be placed in all the schools of the town.

I sincerely believe that the above suggested improvements are necessary for the best interests of the schools, the whole cost of which will not exceed \$500.00.

The school year of thirty-four weeks should be continued.

I would recommend a tax of \$0.70 on the dollar of the Grand List for the maintenance of the schools.

In closing permit me to say that I heartily appreciate the support accorded me by teachers, school directors and citizens during the past five years.

Respectfully submitted,

FREDERICK W. WALLACE,

Union Supt. of Schools.

Report of Construction of New Bridge.

As authorized and directed by vote at March meeting and at a special meeting July 3rd, your Selectmen proceeded to the building of a reinforced concrete bridge, to replace the old covered bridge at Enosburg Falls. An engineer was engaged, plans and specifications prepared and bids advertised for in the usual way.

The contract was let to the Hynes Construction Co. for \$10,455.00. The other bids received were: J. M. Swan & Son, \$12,500.00, J. A. Cashman, \$13,389.93, C. E. Foley, \$15,183.00.

As the work proceeded it was found necessary or advisable to authorize extra work not provided for in the contract to the amount of \$592.84. Of this amount \$25.00 (the cost of one lamp-post) was donated by T. J. Hynes; and \$85.00 was paid by the Dr. B. J. Kendall Co. toward the cost of some of the extra work that especially benefited their property, making the direct net cost of the bridge to the town \$10, 953.72, which amount is outstanding, to be paid as provided for in the vote authorizing the work. Other expenses amounting to about \$145.00 incidental to, but not directly chargeable to the bridge account, have been paid from the General Fund, and the amount of the Selectmen's charges for personal services has been largely increased because of this work. The engineering expense \$520.19 was paid by the State.

The report of H. M. McIntosh, the engineer named by the State Highway Com. to make the final inspection of the work, follows:

To the Selectmen of the Town of Enosburg;
Gentlemen:

On Sept. 29th and again on Oct. 21st when the work was practically completed, I made a careful examination of

your new reinforced concrete bridge across the Missisquoi River at Enosburg Falls, and so far as I was able to determine I found that the Contractors had practically fulfilled all the requirements of the plans and specifications, and I would recommend a settlement with the said Contractors according to the terms of the contract.

I also found that the extra work authorized by your Board was proper and advisable for the interest of the Town, and after checking over the several items, do approve of the payment of \$592.84 as payment for such extra work.

Respectfully submitted,

H. M. MCINTOSH, C. E.

Enosburg, Vt., Feb. 5th, 1916.

THE COUNTY ROAD COMMISSIONER, J. C. TOWLE,
REPORTS AS FOLLOWS:

ENOSBURG 1915, STATE WORK.

Job No. 1 By J. O'Neil, from in front of Burton Stone's house to Corporation line, 112 rods underdrain and Telford road, \$1,987.30

This includes cutting tops of both hills two feet and a fill across the hollow of three feet also lengthening stone culvert six feet and widening road and a heavy side wall five feet high on side across the hollow with plank railing each side. One corrugated culvert with cement headers.

Job No. 2 By H. W. Towle, at curve by Lewis Lambert's, and at Geo. Jacob's corner on road leading to E. Enosburg, 38 rods Telford road, 582.25

This includes J. Paquette's work with steam drill.

Job No. 3, by J. O'Neil, from North Enosburg bridge toward Enosburg Center to C. H. Stratton's house, 38 rods Telford and underdrain, 222.66

This includes two corrugated culverts, one foot diameter, 26 and 28 feet long.

On account of a technicality in the law Enosburg will not receive the \$500.00 promised from the surplus until 1916.

J. C. TOWLE,
Franklin County Supervisor.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the Honorable Board of School Directors and Citizens:—

I have the honor to submit my sixth annual report of the schools throughout the town of Enosburg.

Because of the change in the State law in regard to the report of the School Directors, it has been thought best to include the report of the superintendent of schools at this time rather than in June as formerly.

Therefore, this report will cover the work of the schools from July 1, 1915, to the present time.

TEACHERS.

Eleven teachers have been employed during the present school year.

GRADE OF CERTIFICATES.

1 teacher.....	life certificate
4 teachers.....	first grade,
5 teachers.....	second grade,
1 teacher.....	third grade.

It will be noticed by the above data that the grade of certification is much superior to that of former years.

The School Directors so far as possible have taken advantage of the present State law in regard to rebate on trained teachers.

It would be fair to state that the personnel of the present teaching force is of a higher standard than usual,

and the superintendent is convinced that the character of the work in the various schools, as a whole, is far superior to that of past years.

The superintendent is pleased with the enthusiasm, conscientious endeavors and professional spirit manifested on the part of the teachers in their chosen work.

That portion of the present State law which was formulated for the benefit of the rural schools is beginning to take effect in a substantial manner.

There is no logical reason why we should not have as well qualified teachers in the rural schools as in the grades and, if we expect to receive the service, we must expect to meet it with the proper remuneration.

Every encouragement possible should be exerted for trained teachers, which is bound to result in the betterment of the educational system.

PUPILS' ENROLLMENT.

Austin school	13
Bordoville school	27
Enosburg Center school	27
East Enosburg	21
Hill West school	22
Sand Hill school	17
Samsonville school	23
West Enosburg school	25
Woodward school	9
Wright school	13

Total 187

The Duffy Hill school has been taken over and is being run by the town of Sheldon which accounts for the decrease in the total number of pupils of the town.

Through the co-operation of school officials and citizens the school attendance is, no doubt, above the average.

We do not think that many of the pupils stay away from school unless it is because of necessity.

The truant officer, Mr. M. L. Dow, is doing very efficient work and the teachers are playing no small part in this particular phase of school work.

The attendance in some of the schools during the fall term was almost perfect.

If all of the parents could really appreciate the importance of perfect attendance and the valuable results obtained therefrom, we are sure that they would do all in their power to reduce the absent marks to a minimum.

The experience of the superintendent with parents in this particular has been very pleasant indeed and he has been received with kindness and respect in practically all cases.

IMPROVEMENT OF SCHOOL PROPERTY.

Repairs have been made in several of the school buildings during the past year. We do not see why the West Enosburg school is not just as comfortable at the present time as any graded school building, as it should be. It has an up-to-date heating plant, slate blackboards and plenty of good pictures on the walls. The Samsonville building has been renovated, a new outhouse constructed and a new fence built around the entire lot. A new basement has been constructed under the main building which is a credit to the town and when the contemplated heating plant is installed this school will be in first class condition. Slate blackboards and pictures can also be observed on the walls of this building. Slate boards have also been placed in the Bordoville and Center Enosburg schools.

The Woodward school has been repaired so that at present it is in very good condition.

The work of the rural schools is improving and the efforts put forth on the part of the State as well as the community to bring them into the possession of that which justly belongs to them is deserving of the highest commendation.

BOOKS AND SUPPLIES.

The necessary books and supplies have been furnished all of the schools. New series of histories were purchased at the beginning of this year, also, a new set of spellers.

The old books in geography should be changed in a year or two.

The Course of Study is arranged so far as possible to meet the requirements of the graded school system.

The prizes won at the Franklin County Fair last September are as follows:—

Class 62, first prize, rural school, Samsonville.....	\$5.00
second prize, rural school, Enosburg Ctr....	3.00
Class 64, first prize, Gaylord Chamberlain.....	1.00
first prize, Gaylord Chamberlain.....	1.00
first prize, grades 8 and 9, Enos. Ctr.....	1.00
second prize, Olin Mitiguy50
second prize, Eleanor Stone50
Class 65, first prize, Mae Sabourin	1.00
first prize, Eleanor Chapman	1.00
Class 66, first prize, grades 4 and 5, Bordoville.....	1.00
Class 70, first prize, Madge Cushman.....	1.50
first prize, Madge Cushman.....	1.50
second prize, Sadie Huckins	1.00
second prize, Sadie Huckins	1.00
third prize, Dorothy Ovitt.....	.50

Enosburg town made a very good showing in this particular, taking into consideration that only \$100.00 was given in prizes throughout Franklin County. It will also be noticed that Enosburg won both the prizes for rural one room schools. We hope that the parents will encourage the pupils to take part in these contests because we believe that competition serves as a stimulus for the best work.

I would respectfully recommend that:

1. Slate boards be installed in all of the rural schools. The cost would be less than \$100.00.

The cost of the wood boards for a period of years is greater than that of the slate boards, and they are never as satisfactory.

2. Water tanks be placed in all of the buildings in accordance with the State law.

3. The Austin school, Bordoville school and Wright school be painted outside.

It is the opinion of the superintendent that it is economy for the town to keep the buildings in first class condition. The School Directors have been doing very efficient work along this line and the teachers appreciate the results.

In conclusion I wish to express my feeling of gratitude for the hearty support and co-operation accorded me by citizens, school directors and teachers during the past six years.

Respectfully submitted,

FREDERICK W. WALLACE,

District Superintendent.

Total deficit to Feb. 1, 1916,	\$139.61
	<hr/> <hr/>

The Opera House property is insured for \$10,500.00 in the following companies:

Union Mutual;	\$1,500.00, expires Mar. 1, 1916.
Berkshire Mutual,	1,000.00, expires May 18, 1916.
Queen Ins. Co.,	1,000.00, expires Jan. 4, 1917.
Trades & Mechanics,	1,000.00, expires Jan. 4, 1917.
Vermont Mutual,	5,000.00, expires May 10, 1918.
State Mutual,	1,000.00, expires May 20, 1918.

Considering the fact that the Opera House is opened free at least eight times a year for public meetings, the trustees feel that the deficit is not a large one, and it should not disturb the taxpayers. Owing to the scarcity of traveling theatricals, due to the prevalent moving picture craze, the hall in consequence has suffered thereby. Three companies cancelled engagements during the past year which incurred more or less expense to the hall management. With the taking over of the Opera House property by the Town and Village considerable necessary expense was incurred, including the transfer of insurance policies, and the taking of \$2,000.00 additional insurance; the added expense of the Federal tax of \$50.00 per year; painting the building, which is absolutely necessary every four years to keep the same in good condition; have been the larger items of expense for the first year's operation of the hall.

Unlicensed Dogs.

A warrant was issued by the selectmen to kill unlicensed dogs, returnable in 60 days. There was a complaint received that a man in the east part of the town was the keeper of two unlicensed dogs. Investigation however proved that one of the dogs was registered in Bakersfield and the other not having been owned by said keeper 10 days he was permitted to have the dog licensed and avoid a fine. One other tramp dog has been killed. The warrant was duly returned at the expiration of 60 days, as the law directs.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the Honorable Board of School Directors and Citizens of the Town of Enosburg.

Gentlemen:—I have the honor to submit my seventh annual report of the conditions, the needed repairs and the work of the various schools throughout the town of Enosburg.

Ten elementary schools are being maintained during the present school year with an enrollment as follows:

(Statistics at the end of the fall term.)

Name of School	Name of Teacher	No. of Pupils.
Bordoville school.....	Teresa Sullivan.....	17
Enosburg Center.....	Alice Leonard.....	16
East Enosburg.....	Mary Kennedy.....	16
Austin School.....	Florence Myers.....	17
Hill West.....	Ruth Austin.....	18
Sand Hill.....	Flora Chaffee.....	19
Samsonville.....	Eunice Murphy.....	25
West Enosburg.....	Marian Stanley.....	20
Woodward School.....	Marie Wheelock.....	9
Wright School.....	Florence Watson.....	14
Total.....		171

It must be remembered that the enrollment varies in the different schools throughout the town, because of the moving about of quite a few families during the fall months, and the enrollment no doubt will be some larger before the end of the year.

The Duffy Hill school is now maintained by the town of Sheldon but some of the Enosburg pupils attend this school.

TEACHERS.

Thirteen elementary teachers have been employed during the present school year with certificates as follows:

2 Teachers.....	Qualification
8 Teachers.....	Probationary
2 Teachers.....	Third grade
1 Teacher.....	Permit

Teachers' certificates obtained under the new certification law are classified as: Probationary Certificate, good for one year; Qualification Certificate, good for five years; Life Certificate, good for an indefinite time.

A rural school teacher holding any one of the certificates mentioned above under the new regulations is eligible to a State rebate. As a matter of fact these rebates do not come direct to the teachers but to the towns employing such teachers.

The present tendency of the State Educational System is to encourage training for all prospective teachers and those who are now in the service are required to take a summer course at one of the Normal schools, Colleges, University or other institutions furnishing equivalent instruction before they can obtain a qualification certificate.

The idea of trained teachers for the rural schools is entirely in line with the most progressive State of the Union in educational work. The State of New York has a very large number of teacher training courses in the different high schools throughout the State and has had many of them for years. The State of Ohio has passed a law requiring trained teachers in all the schools. The State of Iowa is establishing schools as fast as possible

for the training of teachers. The state of Wisconsin during the school year 1914-15 had 28 County training schools for the rural teachers with an enrollment of 1,518 students. The State of Minnesota has a productive permanent State fund of \$25,000,000 and this amount is being increased at the rate of \$1,000,000 annually for the encouragement of rural education.

Everything should be done to give the pupils of the rural community just as good opportunities, so far as possible, as those who attend the large village and city schools.

It can be justly said that the teachers throughout the town are faithful, industrious and alive to the responsibilities of their respective positions. I do not know of any time during the past seven years when the schools as a whole were in any better condition, in fact I think it would be safe to say that there is quite an improvement over previous years.

A school system is something that cannot be built up in a day, but it requires patience, courage and long suffering. More over, it is essential that the most helpful co-operation exists among parents, teachers and pupils if the best results are to be obtained.

SCHOOL SAVINGS SYSTEM.

Arrangements have been made with the Enosburg Falls Savings Bank and Trust Company whereby deposits are made by the children of Enosburg Falls, Franklin and Sheldon, so that at the present time there are 234 depositors with an amount of \$1,713.81 deposited in the bank. This has been a wonderful success up to the present time and we hope that it will continue so to be. It needs the encouragement of parents in order to obtain the best results in this feature of the school work. It is possible to extend this system to the rural schools and there is no doubt but that it would be of great value to the pupils. Work of this kind is substantial and will have its influence on the community of the future.

SCHOOL ATTENDANCE.

Certificates of attendance have been given out for the past three years. These are granted to those pupils whose records are perfect for the term. We believe that this has not only been a means for the improvement of attendance in the different schools of the town, but has been a saving of money in truancy cases.

Prizes have also been given to those schools holding the highest places. We find that with these means of encouragement some of the schools have attained almost a perfect record. The superintendent wishes to express his appreciation of the kind co-operation of parents in this particular.

HOME ECONOMICS.

By permission of the school directors we are trying an experiment in Home Economics at the West Enosburg school.

Mrs. M. L. Hubbell has not only consented to help the teacher out in this part of the work but has offered to furnish a large amount of the equipment to be used. The plan is to have cooking, sewing and manual training during one afternoon about once in two weeks.

This is not an entirely new scheme but it is actually being worked out in rural schools in Vermont and other parts of the country.

BOOKS AND SUPPLIES.

The school directors were very fortunate in purchasing their paper and supplies (not books) last June before the high prices reached us. Not less than \$150 to \$200 was saved in a purchase of a little over \$100.00 for paper has gone up over 200% since that deal was made. We have on hand nearly enough paper to last during the remainder of this present school year. Not all of

the arithmetic paper will be used. This paper formerly cost 11c per package, now it costs 38c per package. The teachers are asked to be very careful in the use of these materials, although what is needed is provided. The superintendent has been notified that there will be another advance in prices the first of April.

Books have been purchased from time to time as needed so that at present they are in very good condition.

REPAIRS.

New slate boards have been installed in all of the rural schools with one exception and this school, I understand, will soon be provided with boards. The directors again used good judgment in obtaining these boards when they did, for the price has gone up 33% since last year.

We are proud of the repairs made at the Samsonville school.

We feel that this is a modern building with its splendid basement, furnace and hardwood floors. There is no question but that this building is just as comfortable as any of the central schools. The West Enosburg school is also in the same class.

There is a good opportunity to install a furnace at the East Enosburg school. Repairs also need to be done at the Bordoville school.

SCHOOL EXHIBIT.

The town of Enosburg has always made a good showing at the Franklin County Fair. The Samsonville school has obtained the first prize in the County for the past two years.

The prizes won last September are as follows:

Class 62, first prize, rural school, Samsonville.....	\$5.00
Class 64, first prize, drawing, Eleanor Chapman, Samsonville,.....	1.00

Class 64, first prize, literary work, Gr. 9, Bordoville,.....	1.00
first prize, product map, Eleanor Chapman, Samsonville,.....	1.00
second prize, product map, Roland Stetson, Samsonville,.....	.50
Class 65, second prize, drawing, grades 6 and 7, Samsonville.....	.50
first prize, map of Europe, Robert Mitiguy, Samsonville,.....	1.00
Class 66, second prize, drawing, Kenneth Lavalley, Sand Hill.	.50
first prize, map of Vt., Clifford Stetson, Samsonville,.....	1.00
Class 67, second prize, drawing, grades 2 and 3, Enosburg Center,.....	.50

We feel that this exhibit at the County Fair is an important part of the school work and we are confident that it inspires the children to do their best. If a child is encouraged to attain a high degree of efficiency in writing, number work, English, composition, drawing, etc., the chances are that he will retain this ability throughout life.

We hope the parents will encourage the pupils in this commendable feature of the school work.

RECOMMENDATIONS.

I would respectfully recommend that:

1. The Austin school and the Wright school be painted inside and out. The Austin school especially is not in very good condition. If something can be done on these buildings every year where needed, the expense will be so small that it will hardly be noticeable and at the same time save money for the town, because it is not economy to neglect the care of the school buildings.

2. A furnace be installed in the basement of the Enosburg building.

3. The foundation to the Bordoville building be repaired and such heating system installed as seems wise to the school directors. It may seem best to raise this building so that it might be possible to provide for a basement.

In conclusion I wish to say that it is a pleasure to me to give expression of my appreciation of the hospitality and kindness accorded me by the citizens of Enosburg during the past seven years, the hearty co-operation and encouragement of the school directors and the ever untiring and faithful services of the teachers for the educational welfare of the children entrusted to their care.

Respectfully submitted,

FREDERICK W. WALLACE,

District Superintendent of Schools.
